ACADEMIC PROJECTS

EXPERIENCE

In order to read Japanese novel, used python and OpenAI to make a script to translate Japanese into English and Chinese.

For practice, used C# to make a Snake game, encountered a lot of difficulties. Finally the game was failed, but learned how to use codes to control the snake.

SKILLS

Understand and be good at using python, C# language

I have an introverted personality, but I am honest and steady, adaptable, and possess a spirit of teamwork. I am able to quickly immerse myself in new work environments. I approach every job with a positive, proactive, and diligent attitude, striving to do better. I can handle pressure, have logical thinking, and adhere to good professional ethics.
