SUMMARY

Aspiring Data Scientist and Computer Science student with strong foundations in data analysis, machine learning, and software development. Experienced in Python-based data processing, statistical modeling, and API integration. Passionate about leveraging data-driven insights to solve real-world problems and improve decision-making.

EDUCATION

University of Houston, Houston, TX

Bachelor of Science in Computer Science

Expected May 2027

Major GPA: 3.29

Relevant Coursework: Algorithms and Data Structures, Fundamentals of Operating Systems, Programming and Data Structures, Computer Organization and Architecture, Linear Algebra

Houston Community College, Houston, TX

Associate of Science, Computer Science

May 2024

TECHNICAL SKILLS

Programming: Python, C#, C++

Software and Tools: OpenAI, Pandas, NumPy, TensorFlow, Matplotlib

Databases: MySQL

PROJECT EXPERIENCE

Baseball Analytics

January 2026 – February 2026

- Collected and cleaned MLB player performance data from a 200-year period using Python (Pandas, NumPy) to prepare datasets for analysis.
- Performed exploratory data analysis (EDA) to identify trends in batting average, OPS, ERA, and on-base percentage.
- Built regression models to evaluate factors influencing run production and player efficiency.
- Created interactive dashboards in Tableau/Power BI to visualize team performance, player comparisons, and seasonal trends.

Text Translator, Personal Project

June 2024

- Developed a Python script leveraging the OpenAI API to translate Japanese text into English and Chinese.
- Automated text extraction, API requests, and formatted output generation for streamlined reading.
- Designed the tool to process more than 9000 text lines, efficiently, reducing manual translation time significantly.

Game App, Personal Project

July 2025 – August 2025

- Developed a classic Snake game using C#, implementing object-oriented programming principles.
- Implemented collision detection, score tracking, and game state management.
- Improved debugging and problem-solving skills while refining gameplay mechanics.

WORK EXPERIENCE

Food Delivery Driver

June 2021 – August 2021

- Managed 15+ daily deliveries while maintaining strong time management and route optimization.
- Maintained high customer satisfaction through punctual service and clear communication.
- Utilized navigation and mobile technology to optimize delivery efficiency.
- Demonstrated reliability and accountability in fast-paced, independent work environments.
